

## PRINCIPAL REAL ESTATE INCOME FUND INCREASES MONTHLY DISTRIBUTIONS TO \$0.145 PER SHARE

**DENVER – January 29, 2015** – Principal Real Estate Income Fund (the “Fund”), which is traded on the New York Stock Exchange under the symbol “PGZ,” announced the declaration of monthly distributions of \$0.145 per common share, payable on the dates noted below. Based on the Fund’s current share price of \$19.40 (as of market close on January 28, 2015), the distributions represent an annualized distribution rate of 8.97%. This new rate represents an increase over the Fund’s previous distributions.

"Since the last distributions were declared, the Fund has continued to employ leverage to Management's desired level and has remained fully invested consistent with its investment strategy of investing in Commercial Mortgage-Backed Securities and Global Real Estate Securities. This strategy has allowed the Fund to take advantage of improving commercial real estate fundamentals, especially in the U.S. where increased rents and occupancies have resulted in price appreciation throughout 2014. The recovery in commercial real estate has benefited the performance of CMBS as delinquency rates and market loss expectations have each decreased. In addition, growth in property-level income and rising valuations have helped REIT prices move higher, resulting in unrealized gains in the Global Real Estate Securities portfolio. Based on these factors, we are pleased to announce an increase of the monthly distributions to \$0.145 per share from \$0.140 per share," said Marc Peterson, lead portfolio manager of the Fund, which is sub-advised by Principal Real Estate Investors, LLC, and advised by ALPS Advisors, Inc.

The following dates apply to the distributions declared:

Ex Date	Record Date	Payable Date
February 12, 2015	February 17, 2015	February 26, 2015
March 12, 2015	March 16, 2015	March 26, 2015
April 9, 2015	April 13, 2015	April 23, 2015

### RISKS

*This press release is not for tax reporting purposes but is being provided to announce the amount of the Fund’s distributions. In early 2016, after definitive information is available, the Fund will send shareholders a Form 1099-DIV, if applicable, specifying how the distributions paid by the Fund during the prior calendar year should be characterized for purposes of reporting the distributions on a shareholder’s tax return (e.g., ordinary income, long-term capital gain or return of capital). An investment in the Fund is not appropriate for all investors and is not intended to be a complete investment program. The Fund is designed as a long-term investment and not as a trading vehicle.*

*Investing in the Fund involves risks, including the risk that you may receive little or no return on your investment or that you may lose part or even all of your investment and exposure to below-investment grade investments (i.e., “junk bonds”). The Fund’s net asset value will vary and its distribution rate may vary and both may be affected by numerous factors, including changes in the market spread over a specified benchmark, market interest rates and performance of the broader equity markets. Fluctuations in net asset value may be magnified as a result of the Fund’s use of leverage. Therefore, before investing you should carefully consider the risks that you assume when you invest in the Fund’s common shares.*

*Securities backed by commercial real estate assets are subject to market risks similar to those of direct ownership of commercial real estate assets including, but not limited to, declines in the value of real estate, declines in rental or occupancy rates and risks related to general and local economic conditions.*

*The Fund's investment objectives and policies are not designed to seek to return the initial investment to investors that purchase shares.*

*Sources of distributions to shareholders may include net investment income, net realized short-term capital gains, net realized long-term capital gains and return of capital. The actual amounts and sources of the amounts for tax reporting purposes will depend upon the Fund's investment experience during the remainder of its fiscal year and may be subject to changes based on tax regulations. If a distribution includes anything other than net investment income, the fund provides a Section 19(a) notice of the best estimate of its distribution sources at that time, available at [www.principalcef.com](http://www.principalcef.com). These estimates may not match the final tax characterization (for the full year's distributions) contained in shareholders' 1099-DIV forms after the end of the year. The rate is the monthly distribution per share times 12, divided by the end of month market price. Past performance is not a guarantee of future results.*

***Investors should consider the Fund's investment objectives, risks, charges and expenses carefully before investing. The prospectus contains this and other information about the fund. For more complete information about the Fund or to obtain a copy of the prospectus, call your financial professional, visit the Fund's site at [www.principalcef.com](http://www.principalcef.com) or call 855.838.9485. Please read the prospectus carefully before investing.***

*Shares of closed-end investment companies frequently trade at a discount from their net asset value and initial offering prices.*

NOT FDIC INSURED | May Lose Value | No Bank Guarantee

The Fund is a closed-end fund and does not continuously issue shares for sale as open-end mutual funds do. Since the initial public offering, the Fund now trades in the secondary market. Investors wishing to buy or sell shares need to place orders through an intermediary or broker. The share price of a closed-end fund is based on the market's value.

ALPS Advisors, Inc. is the investment adviser to the Fund.

Principal Real Estate Investors LLC is the investment sub-adviser to the Fund. Principal Real Estate Investors LLC is not affiliated with ALPS Advisors, Inc. or any of its affiliates.
